

## **Instructor – Powerline Technician**

Location: Seal Cove Campus

Job Opening ID: 7584

Full-Time, Permanent

Commencing: August 29, 2016

Deadline to Apply: Open until filled

### **PUBLIC POSTING**

**DUTIES:** You will instruct students, facilitate learning and evaluate student progress in the Powerline Technician (Operating Program) and/or the Advanced Block Apprenticeship Training. You will plan, organize and manage learning activities and resources in classroom and shop settings and will provide academic advising services. You will teach all of the courses outlined in the Powerline Technician (Operating) Plan of Training, including both theory and practical. Instructional topics may include; pole and climbing safety, AC and DC theory, rigging, structures, mobile training, line work, line design and drawing, above and underground systems and specific terminology associated with trade. Also further instructional topics for Block 2 to Block 4 include: three-phase theory, transformer banking, underground distribution system, live line work, line protective devices, substation, switching stations and terminals. You will also be required to prepare learner performance reports and prior learning assessments as required by the Department of Advanced Education Skills, as well as other related duties consistent with maintaining quality student-centered instruction.

For additional information on the Powerline Technician (Operating) Plan of Training, please visit the following website @ <http://www.aes.gov.nl.ca/app/plans.html>

**QUALIFICATIONS:** You must demonstrate knowledge of power line work and its practical application in industry and knowledge and or experience in classroom management and teaching. You must possess well developed communication, analytical and organizational skills, as well as the ability to work independently and effectively as a team member. Your commitment to student success strategies and initiatives is a requirement for this position. The required knowledge and skills would normally have normally been acquired through Interprovincial Journeyman certificate in Powerline Technician (Operating) with a minimum of six years combined apprenticeship training and recent relevant trade specific industry experience. A Pre-employment Certificate and a Bachelor of Education (Post-secondary or Secondary), teacher training and/or experience teaching at a post-secondary institution will be considered assets.

**SALARY:** Commensurate with qualifications and experience in accordance with the College of the North Atlantic Faculty Collective Agreement.

College of the North Atlantic is an Equal Opportunity Employer

The successful candidate will be required to provide a recent Certificate of Conduct.

Please apply on line complete with resume at [www.cna.nl.ca](http://www.cna.nl.ca). Names of three professional references, including your current supervisor, will be required as part of the interview process.

Candidates must clearly demonstrate in their resume that they meet all of the required qualifications. Failure to do so may result in a candidate being screened out of the competition.
