Location: Burin Campus

Job Opening ID: 10037

Permanent, Full-Time

Commencing: August 27, 2019

Deadline to Apply: July 21, 2019

PUBLIC POSTING

Job Information - Instructor

DUTIES: The primary assignment of the successful candidate will be to instruct students, facilitate learning and evaluate student progress by planning, organizing, and managing learning activities and resources in both classroom and shop settings. The instructor will incorporate their own teaching style to existing lesson plans by preparing and implementing various instructional strategies, techniques, and learning models to achieve specified learning outcomes and meet course objectives; establish student performance objectives and evaluation methods and meet with students regularly to gauge and evaluate progress and identify and resolve problem areas in teaching and learning; communicate effectively at a level appropriate to the ability of students and support an emotionally safe learning environment that is conducive to learning by maintaining appropriate classroom discipline following College policies and procedures; and actively participate in and contribute to accreditation activities to ensure the program is of the highest standard. You may be responsible for delivering any of the trade specific courses in this program such as: Welding Power Sources, SMAW fundamentals and processes, Wire Feed Arc Welding, GTAW Processes, and Welding Standards and Codes.

QUALIFICATIONS: The successful candidate must demonstrate knowledge of the welding trade and welding engineering technology industry. An understanding of methods used to teach course concepts and classroom management is also required. Effective communication, analytical, conflict resolution and organizational skills, as well as the ability to work effectively both individually and as part of a collaborative team while establishing and maintaining effective working relationships in a teaching environment are essential. Candidates must have a strong commitment to student success strategies and initiatives. The required knowledge and skills would normally have been acquired through the completion of Interprovincial Journeyman Certification in Welding supplemented with a minimum of six years combined apprenticeship training and recent related trade specific industry experience. CWB Level 2 Inspector Certification is also required for this position. A Bachelor of Education (Post-Secondary or Secondary) Degree, teacher training, and experience teaching at the post-secondary level will all be considered assets.

SALARY: Commensurate with qualifications and experience in accordance with College of the North Atlantic Faculty Collective Agreement.

College of the North Atlantic is an Equal Opportunity Employer.

The successful candidate will be required to provide a recent Certificate of Conduct.

Please apply on-line complete with resume at www.cna.nl.ca. Names of three professional references will be required as part of the interview process.

Candidates must clearly demonstrate in their resume that they meet all of the required qualifications. Failure to do so may result in a candidate being screened out of the competition.
