PUBLIC POSTING

Job Information

DUTIES: As part of the instructional team for this program, the primary assignment of the successful candidate will be to facilitate learning and evaluate student progress by planning, organizing, and managing learning activities and lab/field equipment in both classroom and lab/field settings. You will prepare and implement various instructional strategies, techniques, and learning models to achieve specified learning outcomes and meet course objectives. Duties will also include the preparation of resource material to support the delivery of courses included in the program. You will be expected to communicate effectively at a level appropriate to the ability of students and support an emotionally safe learning environment that is conducive to learning by maintaining appropriate classroom discipline following College policies and procedures. As the successful candidate, you will keep course portfolio documents required for accreditation processes and engage in instructional and program development/improvement plans and are expected to contribute to professional and community life within the College and beyond, as well as perform other related duties that contribute to a quality student centred environment. Areas of instructional responsibility may include all topics covered in the full scope of this program. Additional program details can be found at <https://www.cna.nl.ca/program/agriculture-technician-co-op>.

QUALIFICATIONS: The successful candidate must possess broad knowledge and experience within the agriculture industry. An understanding of current teaching/learning methods and classroom management is also required. Well-developed communication, analytical, conflict resolution, and organizational skills, as well as the ability to work independently and as part of a collaborative team while establishing and maintaining effective working relationships in a teaching environment are essential. You must also have a strong commitment to student success strategies and initiatives. The required knowledge and skills would normally have been acquired through the completion of a Bachelor of Science in Agriculture or equivalent degree supplemented with at least four years recent, related industry experience. You must also meet eligibility requirements to obtain Professional Agrologist designation. A Bachelor of Education (Post-Secondary or Secondary) Degree, and teaching experience at the post-secondary level would be considered assets. The successful candidate must also be willing to obtain a Class IV Driver's License.

SALARY: Commensurate with qualifications and experience in accordance with College of the North Atlantic Faculty Collective Agreement.

College of the North Atlantic is an Equal Opportunity Employer.

The successful candidate will be required to provide a recent Certificate of Conduct.

Please apply on-line complete with resume at www.cna.nl.ca. Names of three professional references will be required as part of the interview process.

Candidates must clearly demonstrate in their resume that they meet all of the required qualifications. Failure to do so may result in a candidate being screened out of the competition.
