Job Title:	Instructor, Instrumentation Engineering Technology
Job ID:	10835
Location:	Qatar
Deadline:	October 1, 2019
Full/Part Time:	Full-Time

College of the North Atlantic – Qatar
The professional and personal experience of a lifetime!

Your dream

Make your dream of living and working abroad a reality! Join our team at College of the North Atlantic's world class, post-secondary campus in the State of Qatar, and enjoy rewarding experiences teaching students from a variety of nationalities and cultures.

College of the North Atlantic – Qatar (CNA-Q), is Qatar's premier technical college, offering over 30 diploma programs through student-centered learning, using world-class training facilities. Since opening in 2002, CNA-Q has over 5,000 graduates who are proudly contributing to Qatar's knowledge-based economy and making the [Qatar National Vision 2030](#) a reality.

Your commitment

Reporting to the Associate Dean, School of Engineering Technology and Industrial trades, the instructor will be responsible for the development, delivery and evaluation of a broad range of courses within the Instrumentation Technology technician and technologist programs. S/he will evaluate student progress and manage the resources of the learning environment. The instructor will liaise with industry and other educational institutions; participate in industry advisory committees and coordinate, manage and control projects within the specified program area. Instructors will keep course portfolio documents required for accreditation processes and engage in instructional development/improvement plans. All employees are expected to contribute to professional and community life within the College and beyond.

Your qualifications

A Master of Engineering (Electrical), plus a minimum five years employment experience as an instrumentation practitioner / professional is required. A Bachelor of Engineering (Electrical) with specialization in area of instruction may be considered. A Certificate, Diploma or Degree in Education and/or certification as a Professional Engineer or equivalent would be assets. Instructor training and/or experience teaching at the post-secondary level are definite assets. Expertise in curriculum development is desirable. Candidates must demonstrate an understanding of how to effectively deliver course material (in classroom and laboratory environments), evaluate student progress, and support and mentor a diverse student population to ensure academic success. Exemplary communication and interpersonal skills and expert fluency in English are required. Effective problem-solving skills and the ability to develop effective working relationships across all levels of the organization are also required. Candidates must possess strong computer skills and knowledge of learning technologies. A demonstrated commitment to working in a team and learner centered environment is also required. Intercultural competence including intercultural sensitivity and adaptability, and an ability to behave appropriately and effectively in another culture are essential. Knowledge of

the CNA college system is a definite asset. Candidates with an equivalent combination of education and experience may be considered.

Your move

If you are ready for a professional and personal adventure in the Middle East, we'd like to hear from you. **See our website <http://www.cna.nl.ca/careers/> to apply.**

Successful candidates must provide a recent Certificate of Conduct as well as ***original transcripts*** sent directly to our office from the institution(s).

NOTE: Employment is contingent upon successful completion of the State of Qatar visa process.
